in the President's *National Plan for Information Systems Protection.* This program seeks

to increase the number of qualified students entering the fields of information assurance

and computer security in an effort to respond to the threat to the Federal Government's

information technology infrastructure. The program provides selected 4-year colleges

and universities scholarship grants to attract students to the information assurance field.

Participating students who receive scholarships from this program are required to serve a

10-week internship during their studies and complete a post-graduation employment

commitment equivalent to the length of the scholarship or one year, whichever is longer.

OPM operates this collection of information for NSF under a reimbursable (Economy

Act) agreement. Approval of the webpage is necessary to facilitate the timely registration,

selection and placement of program-enrolled students in Federal agencies.
